Dear Shri.V.Rajagopal,

It is a matter of gratification to see that the librarian, the students and the teachers of KV No.1 Narimedu, Madurai are bringing out a quarterly newsletter called ‘FIESTA’ highlighting the activities, incidents and anecdotes characterizing the library life during the last quarter July-September, 2010.

It is apt for a grown up to look back wistfully at the bygone times and long to belong to the library community once again by chewing the cud of memories through ‘FIESTA’.

I am confident that this maiden ‘Quarterly Library Newsletter’ of KV No.1 Madurai will present a portrait of talents, both latent and patent, of the KV No.1 Madurai Library family as a whole.

I look forward to an enriched version of the same in the days to come, perhaps at more frequent intervals.

I congratulate the librarian Sri. K. Ramasamy for taking the initiative to show case the latent talents of the student and the teacher community through this newsletter.

I also request the students and the teachers to make use of this opportunity and come out with creative and critical works of writing.

Wishing you a happy reading for ever,

By
V RAJAGOPAL

From your Librarian

Hai Readers,

Reading is a habit—a life long habit, a life-enriching habit, a life-supporting habit and a life-giving habit. Once tasted, it is inevitable to be away from the books.

Let’s read to lead this world which is waiting for our taking over.

Wish you the very best,
Come on let’s dwell into the world of Reading

Yours bookingly,
K.Ramasamy, Librarian
LIBRARY COMMITTEE 2010-2011

CHAIRMAN : SHRI.V RAJAGOPAL, PRINCIPAL
TEACHER MEMBERS :
1) SHRI.MURALIDARAN, PGT(MATHS)

THE SCHOLASTIC BOOK FAIR—A REPORT

A three days Scholastic Book Fair was organized in the Library Hall by the Scholastic India Pvt Ltd., from 19/08/2010 to 21/08/2010.

The entire collection was organized section-wise in a more beautiful and meaningful manner with attractive displays of banners and balloons.

The Fair was inaugurated by Shri.V.Rajagopal, The Principal, KV Narimedu, Madurai on 19/08/2010 at 10:00 am.

After the inauguration, all the students of the classes I to XII were taken to the Fair to have a visual treat of pondering over the pond of books for a period of 1 1/2 days.

The remaining 1 1/2 days was earmarked for the purchase of the books by the students. Even the parents visited the fair with all enthusiasm.

The Fair ended on 21/08/2010 with a satisfaction of quenching the thirst of our young citizens for their quest for knowledge.
The story is about a cloud of gas which approached the solar system on a course that is predicted to bring in return the Sun and the Earth, shutting off the Sun’s rays casing incalculable changes on our planet.

A group of scientists led by Chris Kingsley arrive at Nortonstove to observe the cloud. The Earth remains in darkness for two days and then sunlight returns but communications through radio becomes impossible due to ionization.

Kingsley establishes a fantastic theory of ‘living beings on the cloud’ which is later proves to be true.

They try to establish communication with the living being. What follows changes the way of life the people on Earth lived. The effect of this catastrophe on the scientists and politicians is convincingly described by Fred Hoyle; so convincingly, in fact, that the reader feels that these events may actually happen.

‘The Black Cloud’ is an exciting, narrative and offers a fascinating glimpse into the scientific power-dream.
